

**NOTES:**

- Plant into mulched areas using a hand trowel by first pulling the mulch away from the are to be dug, dig a hole large enough for the plant plug to fit and replace soil around the plug, slightly compacting the soil to ensure the plug firmly placed.
- Planting into the fabric first requires a small 'X' to be cut into the straw/coconut fabric and spreading of geojute spaces.
- Planting begins directly behind the biolog.

Sym	Qty	Common Name	Scientific name
	22	Bottlebrush Sedge	Carex comosa
	12	Awl-fruited Sedge	Carex stipata
	9	Blue Flag Iris	Iris versicolor
	6	Swamp Milkweed	Asclepias incarnata
	12	Prairie Blazingstar	Liatris pycnostachya
	16	Sensitive Fern	Onoclea sensibilis
	6	Bottle Gentian	Gentiana andrewsii
	6	Turtlehead	Chelone glabra
	9	Columbine	Aquilegia canadensis
	18	Little Bluestem	Schizachyrium scoparium
	10	Ostrich Fern	Matteuccia struthiopteris
	14	Wild Geranium	Geranium maculatum
	6	Meadow Blazingstar	Liatris ligulistylus
	6	Brown-eyed Susan	Rudbeckia triloba
	6	Indian Grass	Sorghastrum nutans
	12	Hoary Vervain	Verbena stricta
	6	Wild Lupine	Lupinus perennis
	9	Narrow-leaved coneflower	Echinacea angustifolia
	9	Big Bluestem	Andropogon gerardii
	12	Alumroot	Heuchera richardsonii
	6	Butterfly Weed	Asclepias tuberosa
	12	June Grass	Koeleria macrantha
	12	Prairie Smoke	Geum triflorum
	6	Prairie Dropseed	Bouteloua curtipendula
	242	Total
